 Govind-v-kartha

Summary

Cybersecurity postgraduate interested in Vulnerability Assessment and Penetration Testing (VAPT). Hands-on experience through security labs and projects involving reconnaissance, vulnerability scanning, and web application testing. Familiar with common security tools for analyzing network services and identifying potential security weaknesses.

Education

Digital University Kerala, Thiruvananthapuram

MSc Computer Science (Cybersecurity)

Aug 2024 – Jun 2026 (Expected)

Focus Areas: Ethical Hacking, Penetration Testing, Network Security, Cryptography, Quantum Computing

University of Calicut, Thrissur

BSc Applied Physics

Jul 2021 – May 2024

Focus Areas: Quantum Mechanics, Computational Physics, Electronics

Skills

Recon & Scanning: Nmap, Gobuster, Nikto

Web Testing: Burp Suite, OWASP ZAP, SQLMap

Exploitation: Metasploit, Hydra, Netcat

Network Analysis: Wireshark, Scapy, PCAP Analysis

Security Frameworks: OWASP Top 10, CVSS, MITRE ATT&CK

Programming: Python, FastAPI, Flask, Bash, SQL

Lab Environments: Kali Linux, Metasploitable

Networking: TCP/IP, DNS, DHCP, HTTP/HTTPS

Projects

Home Lab: Offensive security lab using Kali Linux and Metasploitable for reconnaissance, scanning, exploitation, and post-exploitation. *[Nmap, Metasploit, Hydra, Wireshark]*

PentaVault: Automated VAPT scanning framework implementing reconnaissance, crawling, and vulnerability testing modules with OWASP Top 10, CVSS scoring, and MITRE ATT&CK mapping via a FastAPI dashboard. *[Python, FastAPI, Nmap, Selenium]*

MyShark: FastAPI-based PCAP analyzer supporting protocol breakdown, conversation tracking, and packet inspection using Scapy. *[Python, FastAPI, Scapy]*

AI-Quantum Image Encryption: Hybrid encryption pipeline combining AI-based segmentation with quantum NEQR encryption and AES-256 for satellite imagery. *[Python, Qiskit, Vision Transformers]*

Achievements

Runners-up, DUK InnoFest 2025

Certifications

Google IT Support — Technical Support Fundamentals

Cisco Networking Academy — Introduction to Cybersecurity

Microsoft — Introduction to Computers and Operating Systems and Security
